

NAUI AWARD NOMINATION GUIDELINES

Please keep the following guidelines in mind when submitting your award nomination and supporting documentation/facts:

- The individual should be active with NAUI and in the diving industry and if a NAUI member, must be in active and/or sustaining status.
- The individual should have made a significant contribution* to the sport of Scuba Diving and NAUI Worldwide.
- Nominee should have continuously supported the diving industry in a positive manner which reflects agreement with NAUI's mission.
- Consideration is given to the Nominees' actions in support of NAUI. Preference is given to those nominees who have, by their actions and words, supported the trade association and/or marine environment.
- Self-nominations for any awards may not be considered.
- While nominations received from family members are not necessarily precluded from consideration, preferred nominators are business colleagues.
- Other guidelines may also apply.

***Generally, a significant contribution:**

- Refers to an individual who has made an impact to the sport of diving and aided in the development, promotion, or safety of recreational diving in a manner that has had a positive impact on NAUI's mission and the overall sport. The contribution may be made in the areas of NAUI programs, to scuba education, to environmental consciousness and preservation, to diving safety or other aspects of recreational diving.
- Personal achievements, awards, etc. while important, may not represent a significant contribution as outlined. They may, however, have been awarded for a significant contribution.

The final recipients of the awards are selected on an annual basis at the sole discretion of the NAUI Awards Committee. Each application will be examined for authenticity and merit, using the above guidelines. Any contradiction or false statement will disqualify the applicant.

- See website at www.naui.org/awards for complete criteria for each award.
